

Flood Protection Products available through Discount Scheme

Ventguard Products Ltd

www.ventguard.org

The first source of flooding is usually through airbricks like this

Step 1. Insert rod through Ventguard and the airbrick.

Step 2. The catch on the rod grasps the back of the airbrick.

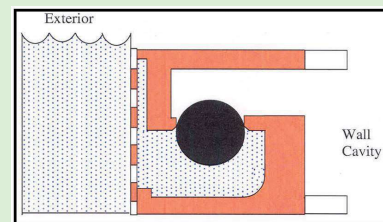

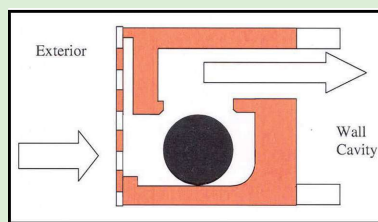

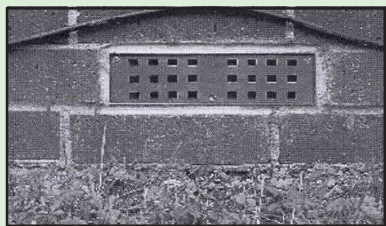

Step 3. Turn the handle to fasten the Ventguard against the brick.

Available in two sizes

Prices are subject to available funding for the scheme

Flood Protection Products available through Discount Scheme

How the Discount Scheme Works

The scheme is available to anyone, private householders or businesses, whose property is at risk from flooding.

Scottish Borders Council will purchase selected products at cost price and make them available with an additional subsidy against each product. The maximum subsidy for any single householder/business is limited to £650. *(Prices are subject to available funding for the scheme.)*

In the event of the £650 maximum being reached then all products over this limit will be sold at cost price.
